**Attention Users: Please see [www.californiadgstats.ca.gov](http://www.californiadgstats.ca.gov) for the latest CA solar data and statistics.**

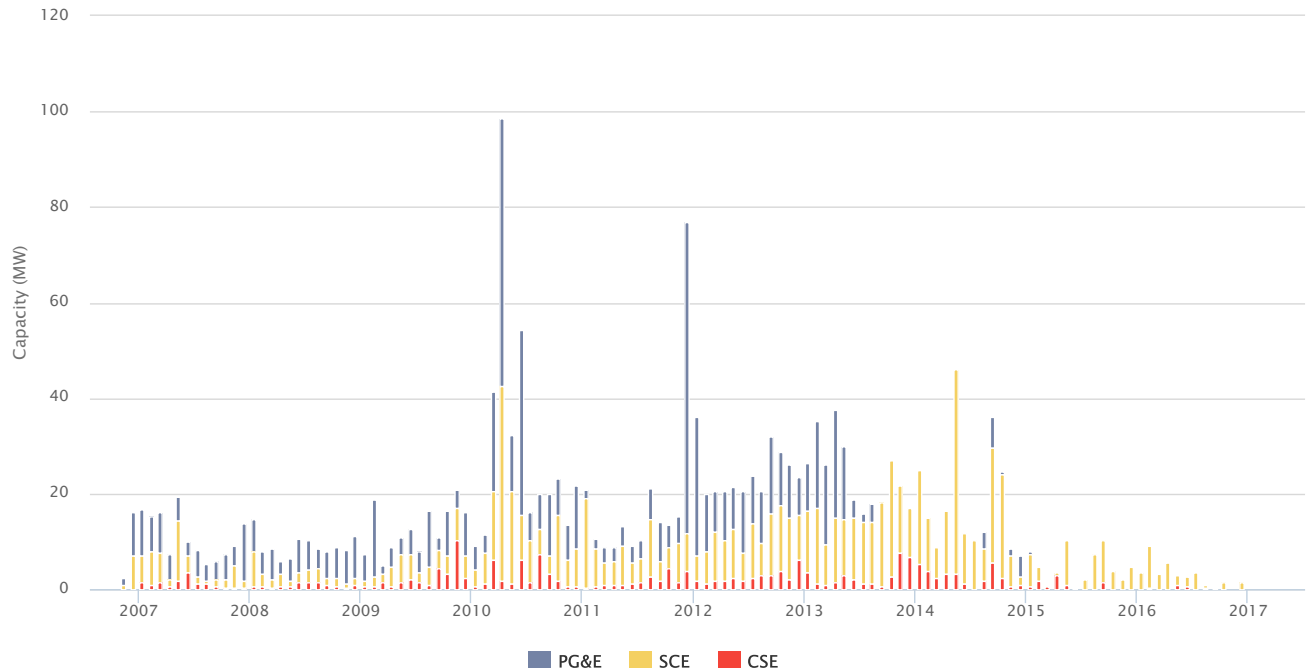

[www.californiasolarstatistics.ca.gov](http://www.californiasolarstatistics.ca.gov) will be retiring on Friday May 29, 2020. Please update your bookmarks and references accordingly. All data and information will be archived and available on California DG Stats.

## Monthly, Quarterly, and Annual Statistics

This figure shows the trend for applications and capacity (MW) by month, quarter or year that have either been received or installed over the course of the CSI Program. The figure can be further refined to display information by Program Administrator, host customer sector or system owner. Using the table view will display totals for each data type.

This report is current as of May 28, 2020.

<sup>1</sup>Received applications include all applications that have reached the "Reservation Request Review" status in the PowerClerk database.

<sup>2</sup>Confirmed applications include all applications that have reached the first of the following reservation dates: "Reserved Reservation", "Confirmed Reservation" or "Pending RFP".

<sup>3</sup>Installed applications include all applications that have reached the "Incentive Claim Request Review" status in the PowerClerk database.

<sup>4</sup>Year is set by the Application Status. If "Received" is selected, then the year would filter applications by their "Reservation Request Review" date in the PowerClerk database. If "Confirmed" is selected, then the year would filter applications by the first of the following reservation dates: "Reserved Reservation", "Confirmed Reservation" or "Pending RFP". If "Installed" is selected, then the year would filter applications by their "Incentive Claim Request Review" date in the PowerClerk database.

<sup>5</sup>The SASH Program is administered by GRID Alternatives.
