FAQs and Facts

Attention Users: Please see www.californiadgstats.ca.gov for the latest CA solar data and statistics.

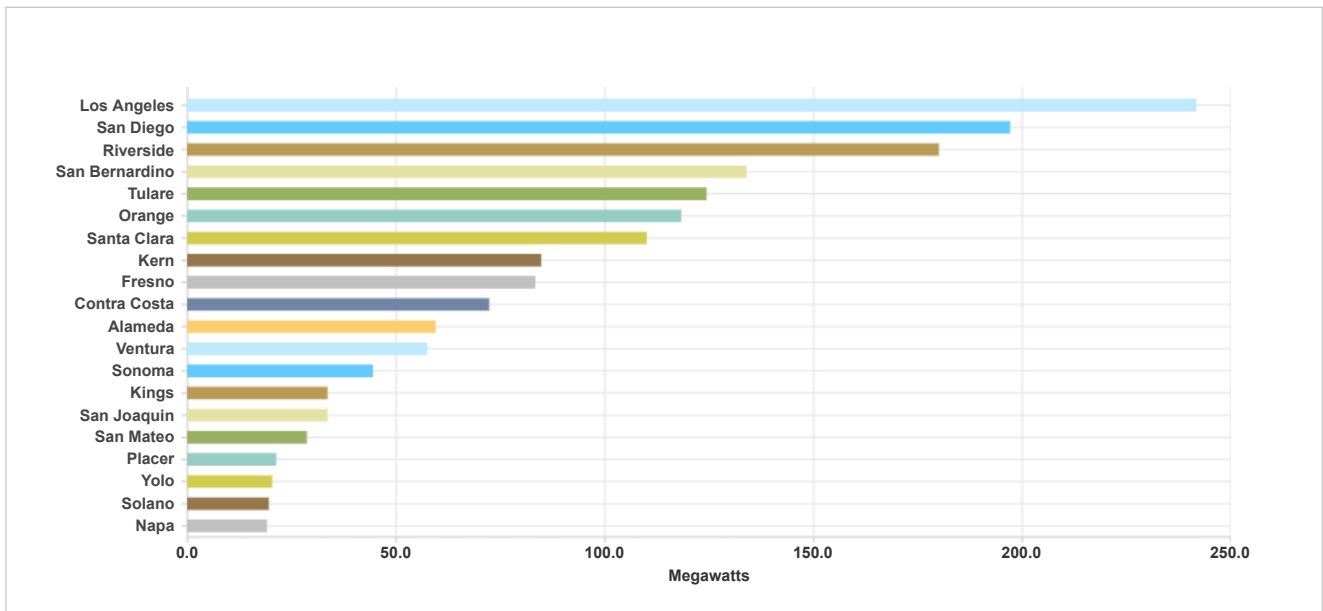

www.californiasolarstatistics.ca.gov will be retiring on Friday May 29, 2020. Please update your bookmarks and references accordingly. All data and information will be archived and available on California DG Stats.

Geographical Statistics

This figure shows the top twenty locales in the CSI Program in terms of number of applications, capacity (MW) and incentive amount. Top twenty rankings can be represented by County, City or Zip Code and can be further refined to display data by Program Administrator, application status and host customer sector. Select the Table view below to display applications, capacity, and incentive amount for the selected locale.

This report is current as of May 28, 2020.

Geographical Statistics

Top 20 represents 86.8% of included applications

143,230 application(s) were included for the generation of this chart.

When an application is processed it goes through different statuses. These are described [here](#)

- ¹ Pending applications are considered to be those between the "Reservation Request Review" and the "Online Incentive Claim Request Submitted" statuses.
- ² Installed applications are considered to be those between the "Incentive Claim Request Review" and the "Completed" statuses.
For a further breakdown of data by status, please refer to figure "Application Status".
- ³ The SASH Program is administered by GRID Alternatives.
